As the elected Mayor and Council, we are pleased to present this year’s Fall & Winter Community Guide. You will find a wealth of information about our community in this guide including events, club information, and activities for children as well as adults. We encourage you to review this guide so that you are made aware of the new services offered within the City as well as changes to the existing programs and services.

The City of Humboldt has received a large number of commercial building permits so far in 2017. This is a sign of growth and expansion for our local economy. Centennial Park is currently being redeveloped and will accommodate a new football/soccer field for the community. New baseball diamonds and landscaping work will also be added to the park as the project progresses. The City is also planning to add three baseball diamonds north of the Humboldt District Hospital (north of 16th Avenue). Base ground work to be complete this year with the three ball diamonds being added in 2018.

The City of Humboldt’s new Engagement Principles have been approved by City Council and are used to guide the participation process and set expectations for citizens for City engagement activities. More information on these principles is within the City Services & Information section of this guide. In addition, the City of Humboldt has added the Well Governed value to the Our Humboldt Strategic Framework. This value relates to the entire framework and focuses on providing excellent service to the public as a local municipality. Finally, the City of Humboldt is starting the Humboldt Youth Council in the fall. Students from grades 8 to 10 from Humboldt schools may apply to become a Youth Councillor. Students accepted into the program will meet with a City representative on a monthly basis during the school year to learn more about municipal governance and discuss initiatives that directly effect the youth in their community.

Enjoy this issue of the Guide and have a wonderful Fall and Winter in Humboldt!

WHY?
Before moving ahead on the vision to revitalize the Centennial Park grounds, we needed to resolve our water drainage issues. In 2016, the installation of a new drainage system tied directly into the City’s storm system was the first major step in making that vision a reality.

BENEFITS?
By installing a new drainage system on the grounds we will now be able to move forward on plans for improved sports fields, green spaces and walking trails.

PROGRESS TO DATE
- Completed the majority of the installation of the water drainage systems in the northeast and northwest portions of the grounds
- Completed a new parking lot on the east side of the main Uniplex entrance
- Initial grading on the southwest corner of the grounds

NEXT STEPS
- Completion of the north parking lot – bringing it up to proper grade
- Complete installation of the pump in the Northwest corner
- Further grading and seeding of green space areas on grounds

We provide options of full and cremation burials within the Public and the St. Augustine Cemeteries. The City also provides above-ground columbarium niches for cremations at the St. Augustine Cemetery.

Throughout the year, the City maintains the cemeteries to keep them tidy and attractive. In early May of each year, the City does a thorough clean up to prepare for the Spring and Summer months. A major clean-up of the cemeteries is also done at the end of October to get ready for the winter months. The City appreciates the cooperation of residents removing all personal items (flowers, lights, etc.) by October 25 of each year.

To purchase a plot or to make arrangements for a burial, please contact City Hall at (306) 682-2525. For more information on headstone placements, permits and maintenance within the cemeteries, please contact the Community and Leisure Services Department at (306) 682-2597.

SNOW REMOVAL

Roadways
In order to keep our community as safe as possible when snow removal is taking place, the streets of Humboldt are prioritized using pre-determined criteria:

1. Highways and Arterial Roads  Highways #5 and #20 are plowed first to ensure access to vital City infrastructure and community services.
2. Collector Roads  These roads connect to arterials and include bus routes and school zones.
3. Residential Roads  If road conditions are icy, sanding, or salting operations are undertaken to help provide traction for motorists. The City aims to clear priority roadways within 1-2 days of a snowfall; after which any remaining residential streets will be cleared.

Community Trials & Pathways
Throughout the winter, the City will clear the following trails:

- 5th Avenue between CN bunkhouse and Humboldt Collegiate Institute
- Through Centennial Park
- Glenn Hall Park
- Along the golf course
- Along PAMI

Residents can expect trails to be cleared within 48 hours of a snowfall, excluding weekends and major snow falls as priority goes to clearing roadways and ensuring access to City utilities and services.

Sidewalks
A list of the sidewalks cleared by the City of Humboldt is listed online at humboldt.ca/road-services. Citizens are strongly encouraged to clear snow off their walkways, driveways, and sidewalk connected to their property.

THE HUMBOLDT FIRE DEPARTMENT
The Humboldt Fire Department (HFD) is committed to serving the community through excellence in fire prevention, education, community protection as well as safety programs and services.

Humboldt Connect Online and Mobile App

The City of Humboldt has a new service that allows residents to report local, non-emergency issues and request municipal services through the Humboldt Connect online and mobile app.

Once an issue has been noted through this service, appropriate staff will be alerted and a response coordinated to ensure the matter is addressed to the satisfaction of everyone involved.

Because local government can’t be in all places at all times, the City of Humboldt wants to empower citizens, businesses, agencies and organizations to take care of and improve the community!
